

MEMO: STORM DEBRIS UPDATE

FROM: SCOTT WIEGHAT, ROAD COMMISSIONER

FORT BEND COUNTY ROAD AND BRIDGE

DATE: SEPTEMBER 6, 2024

Over the last 60 days (2 months) since landfall, Fort Bend County and contractor crews have collected over 550,000 cubic yards of storm debris from Hurricane Beryl. As of September 5th, the debris removal contractor has completed a final pass of storm debris collection and will no longer be picking up storm debris. All debris generated from reconstruction activities (e.g. new fencing, or roofing) should be properly disposed of by the homeowner or contractor performing the work. Please contact your residential solid waste provider for any questions you may have regarding regular garbage and heavy trash collection.

Residents and private contractors having debris to dispose of can use the following resources:

LIST OF LANDFILLS AND RECYCLING RESOURCES:

- BFI- Blue Ridge Landfill
2200 FM 521, Fresno, TX
281-835-6142
